### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mark Anderson on April 21, 2004.

The application has been amended as follows:

Please amend claims 13 and 31 as follows:

13. (currently amended): A net-reinforced film structure formed by the process of providing a film layer;

attaching a netting to said film layer, said netting including standard netting strands and at least one seal netting strand, said at least one seal netting strand having a wider cross-section than said standard netting strands;

~~aligning said at least one seal netting strand with a heat sealing element; and~~

sealing only said at least one seal netting strand to an opposing film structure along a generally linear seal area,

wherein said at least one seal netting strand is located only in the linear seal area.

31. (currently amended): The net-reinforced film structure formed by the process of claim 13 wherein said process further comprises moving said film layer and

said opposing film structure in a direction approximately parallel to a length of said a heating element.

***Allowable Subject Matter***

2. Claims 13-27, 31, and 32 are allowed.
3. The following is an examiner's statement of reasons for allowance: The primary reason for allowance of claim 13 is that none of the prior art teaches a material wherein the wider seal netting strands are found only in the linear seal area. Support for this limitation is found in Figure 3. The primary reason for allowance of claim 21 is that none of the prior art teaches aligning the seal netting strands of two layers together.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeremy R. Pierce whose telephone number is (571) 272-1479. The examiner can normally be reached on Monday-Thursday 7-4:30 and alternate Fridays 7-4.
